Subject: '2007 Basic Pesticide Training Courses' Printable Flyer

Just posted online- a printable flyer for the '**2007 Basic Pesticide Training Courses**'.
See www.pestmanagement.rutgers.edu/PAT/training/basictraincourseflyer07.pdf.

Background: The New Jersey Department of Environmental Protection Pesticide Control Program (PCP) pesticide regulations includes training requirements for any new commercial applicators and operators. Those persons never licensed, as well as those who have not maintained their certification, must complete the training requirements to become licensed.

Training for either a new commercial applicator or operator is to include BOTH a PCP-approved basic pesticide training course, and 40 hours of on-the-job training to competently perform the functions associated with any applications in which they are expected to perform.

Resources: See the Rutgers New Jersey Agricultural Experiment Station Cooperative Extension pesticide applicator webpages (www.pestmanagement.rutgers.edu/PAT/index.htm) and the NJDEP PCP website (www.state.nj.us/dep/enforcement/pcp/index.htm) for more details.

Citations: New Jersey Administrative Code Title 7 Chapter 30; Subchapters 5 and 6 (Adopted 12/6/2004).
